

Looking for a Prototype? Contract
Manufacturer? Design Services?

Our Capabilities

Major Equipment List:

- (2) Okuma MC4VAE Vertical Machining Centers
- Toyoda FA-550 5-Axis Horiz. Machining Center
- 6' x 12' KMT Waterjet/Plasma cutting system
- Okuma LB-15 CNC lathe
- Agie Mondo 20 Sinker EDM
- Agie Progress V2 Wire EDM/w robotic loading
- Amada Pega 337 CNC Turret press
- Thermolyne Heat Treating Furnace
- Missler CNC Horizontal Bandsaw
- Yaskawa Motoman Part Handling Robot
- (2) Citizen G32 Swiss Lathes
- Citizen L-20 Swiss Lathe
- Star SR-16 Swiss Lathe
- Harig CNC Surface grinder
- K.O Lee CNC cylindrical OD/ID grinder
- Mitutoyo 20"x 30" CMM/Metrology lab

With over 25 years combined design, manufacturing, engineering, and machine shop experience we have the know how and resources to assist you with that first prototype, product manufacturing, or consulting on existing in-house manufacturing processes.

Additional Services Offered:

- Mechanical Engineering
- Fluid power design
- Fabrication services
- Industrial Automation
- Heat Treating
- Mass finishing
- Project Management
- Consulting
- Product Design

Contact us for assistance with your design, prototype, manufacturing, and consulting needs. We especially enjoy working with other veteran owned businesses!
